PROJECTS :

- **All-in-One Utility Web Tools** [[Link](#)] [[GitHub](#)]

Developed a responsive web-based platform providing on-device tools for image processing, PDF management, and productivity tasks with secure, fast performance.

Key Features:

- **Image Compressor** – Reduces file size without major quality loss.
- **Image Resizer** – Resize images while maintaining aspect ratio.
- **Image to PDF Converter** – Combine images into a single PDF file.
- **PDF Merger** – Merge multiple PDF files efficiently.
- **ZIP Maker** – Create ZIP archives securely on-device.
- **Image Cropper** – Crop, rotate, and zoom images instantly.
- **Background Remover** – Remove image backgrounds automatically.
- **QR Code Generator** – Generate QR codes for links or text.
- **Age Calculator** – Calculate exact age in years, months, and days.

Technologies Used: HTML, CSS, JavaScript.

SOFT SKILLS

✓ Time Management | ✓ Team Collaboration | ✓ Problem Solving | ✓ Adaptability
